

# METHOCEL CE228

Handling	During use (storage, safe handling is required to prevent dusts with reaching explosive levels as is true with other organic materials of similar particle size. When handling large quantities, local applicable regulations concerning the prevention of dust explosions should be followed. Additionally, METHOCEL products, like other organic chemicals, should not be stored next to peroxides or other oxidizing agents.
Spills/Housekeeping	Solutions of METHOCEL products are slippery. To prevent accidental spills of dry powder should be swept up dry. If the spill is a viscous solution, it should be removed by further diluting with water before disposal.
Disposal	Typically, METHOCEL cellulose ether products can be disposed of by industrial incineration or in an approved landfill, providing regulations are observed. Customers are advised to review their local, state, provincial, or national regulations governing the disposal of waste materials to confirm the appropriate means of disposal in their area.
